

Disclaimer Overview

Healing Codes Coaching is not intended to diagnose, prescribe, treat, or cure any disease, physical or mental. The use of Healing Codes Coaching with a Certified Healing Codes Practitioner (CHCP) is specifically for addressing the underlying spiritual issues that may be causing stress.

Healing Codes Coaching should not be construed as a prescription, a promise of benefits, claims of cures, or a guarantee of results to be achieved.

The information, instruction or advice given by a CHCP is not intended to be a substitute for competent professional medical or psychological diagnosis and care. You should not discontinue or modify any medication presently being taken pursuant to medical advice without obtaining approval from your healthcare professional.

As a client, you must take complete responsibility for your own physical health and emotional well-being.

Disclaimer Explained

Healing Codes Coaching consists of self-help coaching techniques and tools, within the category of “energy therapy.” A client learns and uses these to balance their own body’s energy system with the intention of reducing stress, enhancing overall health, and removing stress from the body.

Dr. Alex Loyd Services, LLC and its Certified Healing Codes Practitioners believe that it is the client who heals himself/herself, and that the tools simply assist the client in this process. Every client is unique, and therefore, each client’s experience with Coding may be unique.

Coaching is not a substitute for regular medical or psychological care. Coaching is not about disease or illness—rather, its focus is on healing and wellness.

Medical authorities do not recognize this work as “medicine.” We agree. There are researchers in this area who believe there is a correlation between the detection of certain energetic frequencies due to spiritual issues and the presence of disease states or organisms in the body. Energy therapies, like the Healing Codes Coaching, may be able to identify the unhealthy spiritual issues before a physical disease manifests in the body. As a person heals those issues, health is enhanced. Our work, which includes evaluations and scans of the subtle-energy field, is strictly limited to address the spiritual issues.

For example, we are scanning for spiritual issues that may be disturbing one’s peace and causing stress. Coaches create Codes to address them. We cannot determine if a client actually has Multiple Sclerosis, Parkinson’s disease, Manic Depression or HIV, for example. Testing for that is beyond our expertise. For those determinations, we refer clients to their M.D. or licensed health care professional for appropriate tests.

No one is advised to discontinue or to avoid medical or psychological consultations. There are cases where medical or psychotherapeutic consultations are advised. Don’t use Healing Codes techniques to try to solve a problem where your common sense would tell you it is inappropriate. Since these are self-treatment techniques, we cannot and will not take responsibility for what you do with them. You are

required to take complete responsibility for your own well-being both during and after the use of our materials and/or coaching sessions.

Some statements on The Healing Codes web site, manuals and products represent working theory rather than accepted science. Certified Healing Codes Practitioners practice as bioenergetic consultants, not as licensed medical doctors, psychologists, psychotherapists, chiropractors, lawyers, nutritionists, or naturopaths.

Although these techniques are being used by therapists, health professionals and lay people worldwide, the practice of bioenergetic consulting is not currently regulated by any licensing board in the United States. Any spiritual counseling provided by Certified Healing Codes Practitioners is not part of any recognized religion or ministry but it is not incompatible with same.

We have not personally experienced any adverse side effects when applying the gentle techniques of The Healing Codes when the treatment protocols and suggestions were followed. This does not mean, however, that you will not experience or perceive negative side effects. If you use these techniques on yourself or others, you must agree to take full responsibility for your own well-being and you are required to advise others to do the same.

You must understand that while an energy healing approach is a safe self-treatment method, with a substantial body of clinical experience showing no serious side-effects when properly administered, it is possible, with any form of healing, that unresolved memories and related emotions and sensations may be brought into your awareness. It is possible that this emotional material may continue to surface after the coaching session and require further self-treatments or coaching sessions. It is also possible that previous traumatic memories may lose their emotional charge, and this could adversely affect your ability to provide legal testimony that carries the same impact as it might have prior to treatment. In some rare cases, clients with chronic illness have reported some mild healing reaction symptoms as their body releases stored toxins. Typically this is short lived and can be addressed with another coaching session or self-treatment protocol.
